Hi Captain Awkward, My partner [26M] and I have been together for about 6 months. We both genuinely love each other, and have been telling each other that we love each other for the last few months; but some recent events have led me to reconsider how seriously committed he is to the relationship, and how much I can trust him.

Navigation is the art and science of safely and efficiently directing the movements of a vessel from one point to another. Piloting uses water depth and visible references, while dead reckoning uses courses and distances from the last known position. More than just finding a vessel's present location, safe navigation includes predicting future ...

This is a very similar breakdown to what I teach my students, but I think youâ€™ve missed an important principle: iteration. An analysis never flows smoothly from collection to conclusions â€“ you will often repeat many parts, discovering problems with your data when you model it, thinking of better models after youâ€™ve looked at residuals, â€˜
