Overview A bright future. With demand for graduates across industrial sectors from oil and gas to food and drink, plus the financial and environmental sectors, chemical engineering is a great choice.

### **Chemical and Process Engineering - BEng (Hons) | London**

Process engineering is the understanding and application of the fundamental principles and laws of nature that allow us to transform raw material and energy into products that are useful to society, an industrial level. By taking advantage of the driving forces of nature such as pressure, temperature and concentration gradients, as well as the ...
